

YOUR EXPORT TO IRAQ Verification of Conformity Programme and Central Bank of Iraq Decision No13

According to information we have received, the Iraqi government is closing "Trabeel " (Trebil) border until further notification. Certificates can still be issued for this border. However the exporter should check that the border is opened again with their importer before shipping.

The entry point "Al Waleed" may be closed as well, but it is not confirmed yet. We are still waiting for further information.

Please email us and we will be happy to provide you with specific information for any or all of the following destinations, also with similar VOC Program:
