New British Business Centre opens in Qatar

Business in Qatar?

A new facility to support companies looking to start and grow business in Qatar, under the aegis of the British Chamber of Commerce. The centre can provide full support facilities, licences, business visas, full service and virtual office facilities for companies that need a professionally managed solution to start operations in Qatar.

- ▶ Use our business centre to establish a cost effective and simple presence in the market. No more transporting brochures or samples.
- ▶ Enjoy access to modern and completely connected office space.
- ▶ With rental periods from 1 day to 3, 6, 9 or 12 months we offer flexibility your business requires, but unlike other business centres there are no hidden charges.
- ▶ We can provide full support services through the business centre to help your company to become a successful established Qatar business. We can help your business through the complex set up processes for trading in Qatar. We work in partnership with all the leading professional suppliers in Qatar (legal firms, tax advisers, accountants).
- ▶ Benefit from access to the wider Chamber membership along with our strong links to the British Embassy and the Department for International Trade as well as the Qatar Chamber of Commerce.

For more information about how you can make use of our business centre please contact:
